### About Me

I am a web developer with a lifelong passion for coding that began with my first lines of HTML in the 90s. Despite pursuing a career as a classical musician and teacher, my interest in writing code has never waned. In fact, I have discovered many parallels between the language of music and coding languages, which has only strengthened my fascination with this field.

I am currently seeking a position with a team where I can immediately contribute my skills and knowledge in web development, while also growing my technical expertise. I have experience working with technologies such as React, JavaScript, TypeScript, HTML/CSS, Git, and Linux, and I have completed projects that demonstrate my abilities in these areas.

My ultimate goal is to leverage my skills and experience to contribute to developing cutting-edge web applications that improve user experience and drive business results. I am excited about the prospect of joining a team that shares this goal and is committed to excellence in every aspect of their work

---

### Skills

React - JavaScript - CSS - Linux - MongoDB - TypeScript - Redux - Express.js  
Node.js - Bootstrap - Git

---

### Experience

#### Spotify Playlist App / React, JavaScript, HTML, CSS

[bit.ly/3WXMlpg](https://bit.ly/3WXMlpg)

React app that is designed to search for songs and add them to a user's playlist. This app calls the Spotify API and uses small components which can be reused when adding features.

#### Parent Practice Help/ HTML, CSS

<http://bit.ly/3CfoT3J>

A website with resources to help parents practice the violin with their children.

#### Finchley Pepper Shakers / HTML, CSS

[bit.ly/3EogBrN](https://bit.ly/3EogBrN)

A responsive website landing page for a fictional club. It's able to adapt to different screen sizes using flexbox.

Experience cont.

**Get it done!** / React, JavaScript, HTML, CSS, Express.js, MongoDB  
<https://bit.ly/3yhW4Bq>

Not your average to-do list project. Full stack app with Express.js backend serving an API in conjunction with MongoDB. Secure endpoints with JWT.

## Work Experience

---

### Frontend Web Developer / Self-Employed

July 2022 - Present, London, UK

Create websites and single-page applications to a design brief using React, JavaScript, HTML, and CSS and database interaction with MongoDB.

### Suzuki Violin Teacher / Self-Employed

September 2010 - Present, London, UK

Responsibilities include: maintaining billing information, setting the studio schedule, and planning learning targets for students and classes. I've taught hundreds of children from ages 3 to teens.

### Suzuki Violin Instructor / Southbank International School

February 2015 - present, London, UK

Working as part of a small team of instrumental teachers providing individual and group lessons to primary-school-aged pupils.

## Education

---
